

Maths

During our maths sessions, we will learn about metric and imperial measurements. We will then study algebra. The children will learn how to find one-step or two-step rule. We will also begin to solve equations and problems with unknown values. By the end of the term, we will start to revisit decimals and learn how to multiply and divide them.

R.E.

Our RE focus this term will be Christianity followed by Islam.

Spanish

We will be exploring some key verbs in the present tense: Vivir, Hablar, Ser.

P.E. (Thursdays)

We will be playing netball and handball outdoors and switching to yoga and pilates indoors.

Art/DT

We will explore Viking patterns and art. We will also use charcoal to create a heath landscape.

PHSE

We will focus on the power of words and discuss the positive and negative aspects of social media.

English

During Term 3, we will continue to read our whole-class text 'Holes' by Louis Sachar. Reading and writing tasks will link with our topics for this term: Macbeth, and later in the term, Scandinavia. We will explore a play script and discuss characters, themes and plot. The children will write an emotive letter, create a poem using rhyming couplets and finally write a discussion text about the downfall of Macbeth. We will revise use of adverbial phrases and consider how we can use conjunctions and adverbials to compare and contrast when writing. We will learn how to create a parenthesis in a sentence.

Subject Specific Vocabulary

English: ambition, avarice, confront, deed, heath, honour, loyal, malice, manipulative.

Geography: biome, climate, culture, polar region, arctic, hemisphere, Nordic, fjord.

Magic Moments (Enrichment)

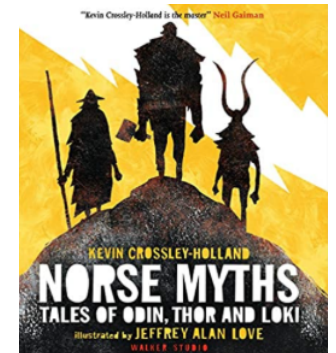

- **Macbeth drama workshops.**
- **Wake and Shake competition.**

Computing

In our computing sessions, we will learn to control devices using Flowol. The children will learn how to build sequences of instructions and structure algorithms.

Exciting books to read!

Topic

We begin the term by concluding our Vikings topic with a study of Viking settlement in Kent. We then switch to a geography focus which links with our history learning: A Study of Scandinavia. Enquiry Question: How much does local geography impact our lives?

Science

This term, we will learn about forces. We will focus on some mechanisms including levers, pulleys and gears, and how they allow a smaller force to have a greater effect.

Music

1970's soul music will be our focus, comparing cover versions.
